

Lokesh Dev

Full Stack Developer | Application Developer | Spring Boot | React JS | Portfolio: Lokesh

Email: lokeshdev655@gmail.com | Mob.: +91-9887423494 | LinkedIn: lokesh-dev | Github: lokeshdev655

PROFESSIONAL SUMMARY

Experienced Full-Stack Developer with 2.5 years in software development, specializing in Java/Spring Boot and React JS, HTML, CSS, JavaScript. Skilled in building robust backend services and interactive front-end interfaces. Proficient in Java/J2EE, with experience in Agile.

TECHNICAL SKILLS

- **Frameworks/ Technologies:** Spring Boot, Spring Data JPA, Microservices, Java 8, React JS, HTML, CSS, JavaScript, Redux Tool Kit, Tailwind CSS, ES6+
- **Storage/ Database Integration:** MongoDB, MySQL
- **Development build tools:** VS Code, Postman, Maven, Spring Tool Suite, JIRA, Bitbucket, Cloudbees

WORK EXPERIENCE

Application Developer, Birlasoft Limited – Noida

Nov 2023 – Present

Project 1. Synchrony Financial

- Modernized a legacy monolithic application into microservices and micro-frontend architecture, improving scalability and deployment efficiency by 30%.
- Build the micro-services with java and spring boot.
- Build micro-frontend with React js, used Redux Toolkit for state management, ensuring faster UI responsiveness.
- Implemented lazy loading, reducing application load time by 40% and optimizing resource usage.
- Responsibilities include building **RESTful micro-services with Java, Spring Boot and developing micro-frontend applications with ReactJS.**
- Actively participating in both technical and business meetings. Collaborated with cross-functional teams, contributing to design, development, and sprint planning meetings.
- Leveraged GitHub Copilot to boost productivity, reducing repetitive coding tasks by ~25%.

Intern Apprentice, Birlasoft Limited - Noida

Apr 2023 – Oct 2023

Project 2. Bank Management System

- Architected microservice-based banking app with 5 independent services, improving modularity and maintainability.
- Utilized Spring Boot + JPA Repository to automate database interactions, cutting SQL query time by ~30%.
- Created an Admin Dashboard for managing employee data with CRUD operations, reducing manual intervention by 50%.
- Applied React Hooks for state and lifecycle management, and Axios for asynchronous API communication.

Project 3. Random GIF Generator

- Developed a React application that generates random GIFs and search-based GIFs using the Giphy API.
- Developed a custom hook (useGif) for reusable API logic, improving code reusability by ~40%.
- Utilized React hooks (useState, useEffect) for state management and asynchronous data fetching.
- Enhanced user experience by managing UI compatible with mobile and desktop viewports.
- View live : <https://random-gif-generator-lokeshdev655.vercel.app/>

Education

Bikaner Technical University

B.Tech in Computer Science

- GPA: 8.3/10

Bikaner - Rajasthan

August 2018 – May 2022
